### 3.1 Election of President

File: 4.1  
Author: Bill Boehm – Chief Executive Officer  
Interest Declared: No interest to disclose  
Date: 18 October 2019  
Attachments: *President Nomination Form sent out to councillors with Agenda*

#### Matter for Consideration:

A President is to be elected from within Council for a two-year term of office expiring in October 2021.

#### Background

The Local Government Act prescribes that Council is to elect a President as the first matter dealt with at the first meeting of Council after an ordinary election's day.

#### Comment

Nominations are to be lodged in writing to the CEO, indicating consent of the nominee, prior to or at the Meeting. (*President Nomination Form sent out to councillors with Agenda*).

Councillors will cast their vote by secret ballot, votes will be counted, and the CEO will declare the results. If there is equality of votes between 2 or more candidates, then the meeting is to be adjourned for not more than seven days. Nominations may be withdrawn, or further nominations may be made before or when the meeting resumes. If the second round of voting results in a tie, then the CEO is to draw lots in accordance with regulations to determine which candidate is elected.

#### Statutory Environment:

*LGA Schedule 2.3 Division 1*

1. *Terms used In this Division*  
— *office means the office of councillor mayor or president.*
2. *When council elects mayor or president*
  - (1) *The office is to be filled as the first matter dealt with —*
    - (a) *at the first meeting of the council after an inaugural election or a section 4.13 or 4.14 election or after an ordinary elections day; and*
3. *CEO to preside*  
*The CEO is to preside at the meeting until the office is filled.*
4. *How mayor or president is elected*
  - (1) *The council is to elect a councillor to fill the office.*
  - (2) *The election is to be conducted by the CEO in accordance with the procedure prescribed.*
  - (3) *Nominations for the office are to be given to the CEO in writing before the meeting or during the meeting before the close of nominations.*

- (3a) Nominations close at the meeting at a time announced by the CEO, which is to be a sufficient time after the announcement by the CEO that nominations are about to close to allow for any nominations made to be dealt with.
- (4) If a councillor is nominated by another councillor the CEO is not to accept the nomination unless the nominee has advised the CEO, orally or in writing, that he or she is willing to be nominated for the office.
- (5) The councillors are to vote on the matter by secret ballot as if they were electors voting at an election.
- (6) Subject to clause 5(1), the votes cast under subclause (5) are to be counted, and the successful candidate determined, in accordance with Schedule 4.1 (which deals with determining the result of an election) as if those votes were votes cast at an election.
- (7) As soon as is practicable after the result of the election is known, the CEO is to declare and give notice of the result in accordance with regulations, if any.
5. Votes may be cast a second time
- (1) If when the votes cast under clause 4(5) are counted there is an equality of votes between 2 or more candidates who are the only candidates in, or remaining in, the count, the count is to be discontinued and the meeting is to be adjourned for not more than 7 days.
- (2) Any nomination for the office may be withdrawn, and further nominations may be made, before or when the meeting resumes.
- (3) When the meeting resumes the councillors are to vote again on the matter by secret ballot as if they were electors voting at an election.
- (4) The votes cast under subclause (3) are to be counted, and the successful candidate determined, in accordance with Schedule 4.1 as if those votes were votes cast at an election.
- Schedule 4.1 — How to count votes and ascertain the result of an election [s. 4.74]
1. The number of votes given for each candidate is to be ascertained.
2. If the election is to fill the office of mayor or president, the candidate who receives the greater or greatest number of votes is elected.
3. If the election is to fill one office of councillor, the candidate who receives the greater or greatest number of votes is elected.
4. If the election is to fill 2 or more offices of councillor, the candidates elected are —
- (a) the candidate who receives the greatest number of votes; and
- (b) the candidate who receives the next highest number of votes; and
- (c) the candidate who receives the next highest number of votes, and so on up to the number of offices to be filled.
5. If 2 or more candidates receive the same number of votes so that clause 2, 3 or 4 cannot be applied, the returning officer is to draw lots in accordance with regulations to determine which candidate is elected.

## Nominations Received

No	Item	Action	Status / Comments
1	Community Project Officer	Working Group held a telephone conference to discuss funding.	Awaiting release of grant funding. Grant applications close Sept 2019.
2	Cemetery and Remembrance Walk	Community Advisory Group inspected niche wall area and marked layout.	Wall design sketched. Awaiting quote.
3	Review of Road Network	Council to conduct a whole of shire road review. Establish roads to be closed/position of roads etc. and work with Landgate and surrounding shires. The status (ie a road defined by description; a dedicated road; a gazetted road; a closed road) of roads no longer maintained needs to be identified before the Shire can progress with this.	Working with Paul Dean of Landgate. Landgate report has been received. Like most rural Council's, we receive a substantial portion of our revenue via the Grants Commission (General Purpose & Roads) for road construction and maintenance. This is based on the length and type of road and as such is an important consideration in any review

### 14.1 Works Supervisor Report

File:

Author: William Herold – Works Supervisor

Interest Declared: No interest to disclose

### Monthly Plant Report

*Note this report will be presented as an attachment as a Late Item in Section 22 Urgent Business*

### Works Report

#### Construction Crew

The construction crew have continued on the Beringarra Cue road reverting back to an unsealed road. Sometime has been lost with the Landor break and some staff being away on personal leave for various reasons. About 13 kilometres of the project has been completed. On or about the 23<sup>rd</sup> of October they will break camp and make their way to the Wooramel River to begin the re-sheet from the North boundary on the Carnarvon / Mullewa Road down to the Wooramel River crossing. This will keep them busy to and past the Christmas break. Water on this job looks likely to become our biggest challenge.

#### Maintenance Crew

The maintenance crew have graded the Muggon Road, Butchers Track, Meeberrie / Worley and are currently cleaning up the edges of the bitumen along the Carnarvon / Mullewa Road. They will then keep heading to the South boundary to do a post Landor touch up before heading to the south boundary on the Beringarra / Pindar Road.

#### Prime Mover

The new Kenworth prime mover has been delivered and pressed in service. (Delivered on 15/10/2019).

Hire of some additional plant will probably need to be considered, Water Cart and a Grid Roller are the most likely items on the re-sheet project from the North boundary to the Wooramel River crossing.

#### Oasis Roadhouse and Caravan Park

Formal meetings with the Roadhouse lessees, Peter and Nicole Mahoney have been instigated. The first of these meetings occurred on October 15 at the Council Offices. Various items were discussed including the status of the lease, outstanding works, new works and the proposed new fuel retail system whereby when the Roadhouse is open all fuel transactions are controlled and conducted from within the roadhouse with all after hours transactions using the existing Card Reader System. These proposed new fuel dispensing arrangements was positively received.

#### Other

Arrangements are being put into place for the necessary repair works for the Coolcalalaya West Road. Along with Josh Kirk I attended a pickup of the Beringarra - Pindar Road to assess likely upgrade works that would be required for the road should the Adaman Resources Project proceed.

### Recommendation

## 17.4 Budget Amendment - Road Asset Management

File:

Author: Bill Boehm - Chief Executive Officer

Interest Declared: No interest to disclose

Date: 17 October 2019

Attachments: Nil

### Matter for Consideration

The *Local Government Act 1995* requires that expenditure from the municipal fund not otherwise included in the annual budget be authorised by Council. This is usually undertaken at a formal budget review which under s33A of the *Local Government (Financial Management) Regulations 1996* must be held undertaken between 1 January and 31 March 2019 in each financial year

From time to time there are circumstances that arise where works that have arisen since the budget was adopted or are considered from a timing perspective to be advanced and are worthy of being committed ahead of a formal budget review being undertaken. Council's RAMM Database and Road Asset Condition Assessment is one such case.

### RAMM Database Revalidation

During the preparation of the Shire's Cost Estimate for the recent AGRN863 flood damage event, Council's Asset Management Consultants were required to provide asset function data extracted from the Shire's RAMM database. As part of this process, it became evident that much of the Shire's RAMM database is outdated. Numerous inconsistencies were identified with the main differences being missing pavement assets and floodway assets from the Shire's RAMM database.

Ensuring the RAMM database is accurate and current is critical as it is a key input into the local government road asset preservation model which determines the value of grant funding each local government receives. By under-reporting the Shire's road assets, there is a risk that the Shire is not receiving the full value of grant funding it may be entitled to. As a result, it is recommended revalidating the Shire's RAMM database by way of a full Shire network pick-up. This comprises:

- Drive through inspection of every road to document the attributes of all road and road-related assets,
- Comparison of the physical inspection data with the existing RAMM data and updating the database accordingly.

In conjunction with this full network inspection it also recommended completing a Road Asset Condition Assessment. The primary reason is to meet the requirements of the reformed National Disaster Relief and Recovery Arrangements (NDRRA) which place a far greater onus on the asset owner to provide evidence of the pre-disaster condition of the damaged asset. This evidence must be provided in the form of geospatial data, visual data or inspections reports.

### Road Asset Condition Assessment

One of the challenges with this new requirement is capturing and documenting the condition of the full length of every road in the Shire's network prior to the damage occurring. Although isolated photos of specific road segments may be sufficient if the damage occurs at that specific location, if a segment of road that was not expected to get damaged (and hence was not photographed) does experience flood damage, the Shire will find it challenging to obtain NDRRA funding to reinstate the asset to its pre-disaster condition.

In order to complete a complete network pick-up with high-definition imagery in a cost and time efficient manner and to manage the significant volume of visual and geospatial data that will be produced as a result of this, Greenfield has recently acquired specialist imagery technology specifically designed for documenting and recording road asset condition.

The technology works by taking high-definition images every 10-15m along the length of the road which are georeferenced against GPS coordinates and road SLK's. It also records surface roughness data which provides a guide as to the condition of the network.

This comprehensive survey dataset can then be used for:

- Road condition assessment,
- Network analysis to develop maintenance and capital works programs,
- Establishing appropriate unsealed and sealed road service levels, and
- Pre-disaster condition evidence required under the new NDRRA flood damage reforms.

Importantly, the survey data collected can be used as evidence to support a NDRRA flood damage claim anytime during the next 4 years commencing from the date of the survey. The collected survey data eliminates any dispute with the funding authorities as to whether the damage has sustained flood damage making the cost estimate approval process significantly more streamlined.

### Comments

The Shire has approx. 1,660km of road network This equates to approx. 4,760km of travel to inspect the full network including travelling back and forth to camp and mobilisation / demobilisation. Estimated cost for this work is \$50,000. This work will substantially improve Council's Asset Management in the roads area. Work will be valid for several years without further pickup being required; a significant improvement on the current situation. It will also allow Council to produce more accurate Asset and Financial Management Plans.

A smaller allocation to pick out and analyse and program councils sealed road works program is also required.

### Statutory Environment

*Local Government Act 1995*

*Section 6.8 Expenditure from municipal fund not included in annual budget specifies that*

*(1) A local government is not to incur expenditure from its municipal fund for an additional purpose except where the expenditure —*

- (a) is incurred in a financial year before the adoption of the annual budget by the local government; or*
- (b) is authorised in advance by resolution\*; or*
- (c) is authorised in advance by the mayor or president in an emergency.*

*\* Absolute majority required.*

*(1a) In subsection (1) —*

**additional purpose** means a purpose for which no expenditure estimate is included in the local government's annual budget.

### Strategic Implications

It is strategically important that Council's Assets are managed appropriately, especially given that roads are by far and away the Councils most important asset class.

### Policy Implications

Nil

### Budget/Financial Implications:

A budget addition of \$60,000 into the COA 14522 Consultancy Fee Budget line primarily towards the Revalidation of Council's RAMM Database and Road Condition Assessment plus a smaller allocation to pick out and analyse and program councils sealed road works program is suggested.

### Sustainability Implications

- Environmental:  
There are no known significant environmental considerations
- Economic:  
There are no known significant economic considerations
- Social:  
There are no known significant considerations

## Recommendation

That Council approves an addition of \$60,000 into the COA 14522 Consultancy Fee Budget line primarily towards the Revalidation of Council's RAMM Database and Road Condition Assessment plus a smaller amount to pick out and analyse and program councils sealed road works program.

## 18 DEVELOPMENT

---

### 18.1 Housing

WALGA have been engaged to undertake the tender process for the provision of two (2) new houses. Prices are being sought for two, three, and four-bedroom options; to be sited on Mulga Crescent immediately to the south of Lots 12A and 12B.

Tenders closed on 3 October 2019 and have been referred to a Tender Evaluation Panel (minimum 3) as per Councils resolution of the April 2019 Meeting. Due to time constraints and with one Councillor Representative assigned to the Panel declaring the makeup of the panel needed to be varied. Two additional members have been added based on the need to include persons with experience and with need to consider likely future involvement of persons for the project.

The Panel comprises Chief Executive Officer, Works Supervisor, Technical Officer, Environmental Health Officer / Building Surveyor and a WALGA representative. A formal report will be submitted and considered by Council at a subsequent meeting

### For Information

### 18.2 Settlement Power Supply

Consultants have been engaged to assist in what is effectively a two-stage process

#### Stage 1

Review existing electrical network and performance and recommend actions with a view to ensuring it will be sufficient going forward. Also scope out specifications for the supply and installation of a replacement Generator on the basis that a renewable energy system will later be installed. Stage 1 is the urgent bit which will be actioned as soon as possible.

#### Stage 2

Review previous reports and documentation and how this aligns with the current market and what it would consider a suitable design for the community requirements and best fit for purpose to align with a suitable long-term renewable le/ diesel power supply system and update analysis of preferred options

In addition to the above the Commonwealth Government has recently announced through the Department of Industry, Innovation and Science that applications are open for that Regional and Remote Communities Reliability Fund for Microgrids. Consultants will also assist in potentially preparing an application

### **19.1 Returning Officer's Report on the October 2019 Elections**

File:

Author: Bill Boehm - Returning Officer  
Interest Declared: No interest to disclose  
Date: 17 October 2019  
Attachments: 19.1.1 Election Advertisements

#### Matter for Consideration

The Office of the Returning Officer is independent of the Council and at the conclusion of an election it is appropriate for the Returning Officer to provide a report to the Council on the conduct of the election

As previously advised at the close of the nomination period the number of candidates equalled the number of vacancies and as a result an election was not required. Accordingly, whilst detailed operational matters associated with conducting the election in person post close of nominations were largely not required, nevertheless various aspects are worthy of a formal report.

#### Background

The Murchison Shire is structured as an entire District and came into existence for the 2017 local government elections. This followed a review of the Electoral System after the Local Government Advisory Board had directed the Shire to undertake a review of its wards and representations to address imbalances then two Ward system. (Darlot and Ballinyoo). The October 2019 Elections was the second with an unsubdivided municipality.

The Council has 6 elected members each with 4-year terms. Three retire every two years. The 2019 elections saw the following Councillors terms expire.

Foulkes-Taylor, Rosco  
Fowler, Quentin J  
Whitmarsh, Andrew

#### General

There is a significant amount of pre-election planning required and training and upskilling required for staff involved. For small municipalities such as Murchison Shire there is also significant reliance on the Chief Executive Officer, who, unless Council otherwise decides is the designated returning officer. In this instance the election was managed initially and virtually all of the work locally by the Acting CEO Eddie Piper (who had extensive WA experience) and, me as incoming CEO (who had some experience interstate but none in WA). This election also saw a new requirement requiring all candidates to complete a course of candidate induction and the ability for electronic lodgement of nominations.

Critically expert experienced advice was available from WALGA's Governance Team, which was invaluable. Administrative compliance is essential and as such the Department of Local Government Sport and Cultural Industries have developed a step by step process through a Returning Officers Manual. Notwithstanding that this was not available until 27 August 2019, overall the administration went.

#### Pre-Election

Like many local governments, Council used WALGA to undertake the required pre and post-election advertising in the West Australian including Enrolling to Vote, Call for Nominations and Local Government Election Results as attached. This is an onerous task and one best suited and cost effective to be done as a sector. In addition, there was a raft of publicity on news outlets and through TV Advertising.

Amongst other things pre-election work was also required to update and keep updated Council's Owner-Occupier roll, including any applications for enrolment which need to be vetted and verified. Eg checking the ASIC registration database

At the close of rolls there were 73 on the Residents Roll as compiled by the West Australian Electoral Commission and 2 on the Councils Owner-Occupier Roll.

### Nominations

A call for nominations was placed in the West Australian on 28 August 2019 with nominations able to be received between 5 September and 12 September 2019. There is a raft of detailed compliance aspects involved that must be followed by those nominating with strict adherence to requirements by the returning Officer. The Returning Officer must also prepare for and be ready for the situation if an election is required prior to the close of the nominations

### Declaration

At the close of the nomination period, the number candidates (3) equalled the number of nominations (3) and as a result the following persons were declared elected unopposed.

Foulkes-Taylor, Rosco

Fowler, Quentin J

Whitmarsh, Andrew

### Comments

Whilst the election process was successfully completed there are a few comments to be noted as follows:

1. The number of enrollments on the owner / occupier's roll (2) is a very small percentage of those that could be eligible if they applied. Whether pre advertising would have made a difference is open to question.
2. Notwithstanding that there was a raft of publicity on news outlets and through TV Advertising, with the change in staff new to the Council during the election period, and lack of a Monologue being produced, apart for an item included in the August the Council Meeting Agenda there was not any additional local information over and above the statutory requirements initiated by the Council. This is something that in hindsight could have been improved.
3. The recent inquiry into the City of Perth Council has already revealed a range of non-compliance aspects associated with electoral rolls and eligibility for enrollments on the owner/ occupier roll and even eligibility for nomination. Findings from this will no doubt shape future legislative changes. What is clear that even with the resources that Perth City have available mistakes can be made in good faith. This applies equally for small Councils and explains why many local governments outsource their electoral responsibilities to minimise the risk, notwithstanding the additional costs involved.
4. The forms required to be filled out by prospective candidates could be improved and simplified with actual examples and dos and don'ts. Once a nomination is submitted there often very little time to correct any errors that may have been made
5. The support from the WALGA Governance Team has found be invaluable with experienced advice readily available. The Department of the Local Government Sport and Cultural Industries website was however cumbersome with no document links which means that the entire web pages need to be either printed or emailed rather than small more concise and usable documents.

### Matter for Consideration:

Section 7.1A of the *Local Government Act 1995* requires a Council to establish an operate an Audit Committee to exercise various powers and discharge duties that and conferred upon it. Whilst most of the requirements contained in sections *LGA Subdivision 2 s5.8 to s5.25* associated with the operations of Committees apply various requirements have been modified *within LGA s7.1A to 7.1C*.

At the October 2017 Council Meeting Council considered and adopted a Terms of Reference for the Audit Committee. A copy is attached. At the time it was resolved that all members of the Council would be members of the Audit Committee.

The Local Government Ordinary Elections were held on the 19 October 2019 and so under the Act current membership of the Shire of Murchison's Audit Committee was discontinued on the that day.

It is considered appropriate to now reconsider the operation of the Audit Committee via the terms of reference as well as the Committees membership.

Comments

The financial creditability of a Local Government is enhanced through the successful operation of an audit Committee which provides independent recommendations to Council on matters that it is required by legislation to do.

The current makeup of the Committee, which provides for all elected members to be voting members could in effect blur these two distinct roles. Whilst this situation is not unique in WA Local Government most Councils would not have all councillors as Audit Committee members with voting rights.

Should Council concur with view then it would open to amend the terms of reference to reduce the number of Councillors to the minimum (3) but also perhaps make provision for all Councillors to be able to attend as and participate but those not appointed will act as observers and not vote. This would improve the governance aspects whilst still allowing all councillors the opportunity for discussion and more in depth briefing on any item without compromising the two distinct roles. I.e Audit Committee and Council.

There is also currently no outside expertise although for a small Shire such is ours this becomes problematic and is perhaps something that can be reviewed at some future date.

At this stage the current terms as of reference as written would seem to be appropriate.

A local government is required to meet with its auditor at least once in every year and the meeting may be conducted by telephone or video conference. From past practice telephone meetings have been arranged. It would seem appropriate that this be so stated in the terms of reference.

The Audit Committee assists the good governance of the Shire.

**19.3 Other Committees Working Groups & Outside Organisations Operation**

 Date: 16 October 2019

 19.3.2 Membership of current Committees, Working Groups and Other Organisations

Matter for Consideration

Pursuant to the *Local Government Act 1995* Council is to determine the membership of all Committees following the day of Ordinary Elections (19 October 2019).

It has also been past practice that the opportunity is taken for the renewal of membership for those groups that have been established as Working Groups that provide advice to the CEO and to appoint delegates of other organisations that Council is involved in.

At this time, it would also be prudent to also review the current Terms of Reference for each Working Group or Committee.

A copy of the existing Terms of Reference for each current Committee / Working Group as well as Membership of current Committees, Working Groups and Other Organisations is attached

### Committees

A local government may establish committees of 3 or more persons to assist the council and to exercise the powers and discharge the duties of the local government that can be delegated to committees.

Committees are to report to Council and provide appropriate advice and recommendations on matters relevant to their terms of reference in order to facilitate informed decision-making by Council in relation to the legislative functions and duties of the local government that have not been delegated to the CEO.

At any given time, each Councillor is entitled to be a member of at least one committee and if a Councillor nominates himself or herself to be a member of such a committee or committees, Council is to include that Councillor in the persons appointed to at least one of those committees, as the Council so decides.

If at a meeting of the Council, a local government is to make an appointment to a committee that has or could have a Councillor as a Member and the President informs the local government of his wish to be a member of the committee, the local government is to appoint the President to be a member of the committee.

If at a meeting of the council a local government is to make an appointment to a committee that has or will have an employee as a member and the CEO informs the local government of his or her wish —

- (a) to be a member of the committee; or
- (b) that a representative of the CEO be a member of the committee,

the local government is to appoint the CEO or the CEO's representative, as the case may be, to be a member of the committee.

An absolute majority of Council is required to appoint each member to a committee.

Where a Councillor is appointed as a member of a committee, the Councillor's membership of the committee continues until:

- (a) the Councillor no longer holds the office of Councillor;
- (b) the Councillor resigns from membership of the committee.
- (c) the committee is disbanded; or
- (d) the next ordinary elections day,

whichever occurs first.

The members of each committee are to elect a presiding member from among themselves in accordance with the Act. The members of a committee may elect a deputy presiding member among themselves, but any such election is to be in accordance with the Act.

At the current time Council has one such committee being the Murchison Community Fund Management Committee. Its main purpose is to manage written applications of request for financial assistance from community members and community groups.

### Working Groups

Working Groups are essentially established to make recommendations to the CEO for presentation to Council. As such that are not formal committees under the *Local Government Act 1995*.

Members are to be appointed having due regard for their particular skills and expertise in the area of interest for which the Working Group has been formed. Community Positions have historically been advertised. If there are more Community applicants than positions, then Council will decide the successful applicant(s), usually at the December Ordinary Council Meeting, having due regard for their particular skills and expertise.

I have reviewed the allocation of staff members and made minor suggested changes from the previous list as a result of a minor review of each person's role and skill sets. The recommendation includes the addition of Councils Technical Officer onto the Settlement Building Working Group and Community Advisory Group. If accepted the respective terms of Reference will need to be amended.

#### Delegates

Delegate positions are those that Council is required to appoint as representatives on other organisations.

#### Comments

In addition to the above there are a range of informal adhoc groups such as the Marketing Group that from time to time may operate. Also being new to the Shire I have no experience as to the activity of each Working Group so it would be prudent to also review whether some should still be required.

### **Recommendation**

That for each Committee, Working Group and Organisation as listed, that Council endorses the listing of staff and community positions and appointments for member positions and if required makes minor changes to the Respective Terms of Reference to reflect any positional changes.

*Note that Council will need to determine from its ranks the relevant member appointments as part of a final resolution*

We have since had the appropriate legal documents completed and also received the Minister’s letter of consent from the Department of Planning, Lands and Heritage. The Sublease extension has been signed by the current operators and as such the documents can be signed and sealed by Council.

It is therefore appropriate for Council to authorise the signing and sealing of the Sub-lease documents.

**Recommendation**

That Council authorise the Shire President and Chief Executive Officer to affix the Council’s common seal to the documents for Lease Number N600051 for the extension and variation of sub-lease for the Murchison Oasis Roadhouse and Caravan Park.

**19.5 Murchison Oasis Roadhouse – Fuel Policy**

File:

Author: Bill Boehm – Chief Executive Officer

Interest Declared: No interest to disclose

Date 19 October 2019

Attachments: 19.5.1 Extract Council Minutes Special Meeting 7 December 2012

Matter for Consideration

Currently the fees and charges for the pricing of fuel (Diesel and ULP) is detailed in Councils Schedule of Fee and Charges which was set in accordance with a policy adopted at the 7 December 2012 Special Meeting. Following review of the situation likely medium to long term costs and considering the time that has elapsed since this aspect was reviewed, this policy is considered worthy of review.

Background

As per Attachment 9.5.1 for 2019-20 fuel has been set according to a policy adopted at the 7 December 2012 Special Meeting as follows:

*“That council amend its’ fuel pricing policy to be: – The price of fuel be set at 10% above the highest of the purchase price (including freight) of newly delivered ULP or diesel which provides for provision for payment of five cents/litre to the Murchison Roadhouse lessee for all fuel dispensed through the Roadhouse bowsers.”*

Upon review of the commentary surrounding the previous decision it seems that a decision was then taken to reduce the price of fuel from a 15.5% mark-up to 10%. At the time it was pointed out that in effect the Council would be subsidising the cost of fuel as costs of fuel purchases, maintenance costs for pumps and bowsers, roadhouse commission and depreciation were not being covered.

As foreshadowed at the August Council Meeting the costs of fuel at the roadhouse appeared to be an issue with the Council operating at not an insignificant loss.eg

Budget Income	\$250,000
Budget Expense	\$268,000

Recently Council had a \$10k expense (unbudgeted) to replace the card reader at the bowsers. The need to move to a new fuel retail system whereby when the Roadhouse is open all fuel transactions are controlled

and conducted from within the roadhouse with all after hours transactions using the existing Card Reader will also need to be funded in part from the Roadhouse fuel budget and part from the Roadhouse Budget.

### Comments

In reviewing the rationale for the policy, it seems in effect the pricing merely puts into practice a desired approach which in 2012 was implicit in the decision but not explicit in its articulation.

It is therefore considered that the approach should be

- (a) Establish the rationale (policy) and
- (b) Set the price as a fee in accordance with his policy

In relation to point (a) it is considered that given the nature of fuel prices and variability capital expenses a medium to long term view should be taken. In there are really three (3) options / approaches with the Council aiming to either:

- 1 make a commercial return over the medium to long term
- 2 neither operate at a profit nor loss over the medium to long term
- 3 subsidise the cost of fuel by a set % over the medium to long term

In relation to point (b) for practicable purposes setting the price *above the highest of the purchase price (including freight)* as a is reasonable as it provides the CEO with the guidelines in which to operate.

A small point to also consider is that Council, as a not for profit organisation in a remote area who purchases more fuel for its own needs than its sells, the normal commercial holding costs of keeping the fuel do not apply so that in effect the customer derives some flow on benefit

From my viewpoint option 2 is the more in keeping with approach and consistent with Councils raison d'etre. However. this is a matter for Council.

For illustrative purposes in the financial Budget/Financial Implications section below three options are presented; which although not definitive, could reasonably represent of the above approaches.

Obviously from a public perception perspective the price at the bowser also has potentially some impact.

### Budget/Financial Implications

Using 2018/19 figures the effects on the operating result for various options is shown below

## **19.6 Local Government Reforms – Elected Member Training**

File:

Author: Bill Boehm – Chief Executive Officer

Date 19 October 2019

Attachments: 19.6.1 Priority Reforms Local Government  
19.6.2 Council Member Training Requirements  
19.6.3 WALGA Training Options

### Matter for Consideration

Provision of legislated elected member training

### Background

On 27 June 2019, the Local Government Legislation Amendment Act 2019 was passed by Parliament. This Act addresses key areas of Elected member training, the treatment of gifts, a new code of conduct, changes to the Standards Panel, best practice standards for CEO recruitment, performance review and early termination; and greater transparency as more information will be made more easily accessible online. Summary of advice is shown on Attachment 19.6.1.

The reforms that commence immediately include Introduction of universal training for candidates and council members; and greater access to information held by a local government.

The immediate issue associated with this item is Introduction of universal training for candidates and council members and to this end Attachment 19.6.2 outlines the legislated training requirements which are mandatory and must be undertaken within the first 12 months of being elected.

The training course, Council Member Essentials, has been developed to provide council members with the skills and knowledge to perform their role as leaders in their district. The Council Member Essentials course has five foundational units. I.e Understanding local government, Serving on council, Meeting procedures, Conflicts of interest and Understanding of financial reports and budgets

All council members will have to complete the Council Member Essentials course unless, in the previous five years, they have passed the Diploma of Local Government 52756WA (Elected Member) or the course titled LGASS00002 Elected Member Skill Set.

The changes have been introduced in recognition of the unique and challenging role that council members have

#### Training Options

Under these changes training must be performed through an accredited provider. This currently includes WALGA and TAFE (North & South Metro). For practicable purposes WALGA is the best choice of these three so I have attached a summary of their training options (Attachment 19.6.3). At this stage I am unaware if there are any other providers accredited but given the relatively new introduction of the-is requirement there may be.

Essentially through WALGA there are face to face and E Learning options. The full face to face package would take 5 days. but whether the value is there is open to question

#### Comment

Whilst E learning options may suit each elected member as the training can be done from home and is likely to be more cost effective from a budget perspective but face to face learning provides better opportunity to engage and question. The full face to face package would take 5 days but whether the value is there from a time perspective is open to question. If conducted at the Council Office, some staff could also participate which would be advantageous. However, if an elected member is not available for a module or if Council so chooses to only conduct part on a face to face basis, then an E learning option would still be required for a particular module.
