### Matter for Consideration

It has been customary practice in the interests of a productive meeting in relation to the Conduct of Members during debates for the Council suspend Standing Orders 8.2 (Limitation on Number of speeches) and 8.3 (Duration of Speeches) under Local Law 2001. To facilitate this, the following recommended resolution is required.

### **Recommendation**

That the following Local Law-Standing Orders 2001 be stood down:

- 8.2 Limitation on the number of speeches
- 8.3 Duration of speeches

### 16.1 Works Report

#### Construction Crew

The construction crew have made steady progress over the last month and apart from any major breakdowns are on track to achieve the goal of completing the reconstruction and widening of various narrow sections of the Carnarvon-Mullewa Road leading up to the Twin-Peaks/ Wooleen Rd intersection. They were down a water tanker for a swing which did cause some delay, hopefully the problem with the old Kenworth 604 is now sorted out.

#### Maintenance Crew

The maintenance crew completed the Carnarvon-Mullewa Rd to the Settlement and then headed over to Boolardy making a start on the Boolardy-Kalli Rd then continued south west on the SKA route skipping works already completed or in progress. They should have reached the new Murchison River crossing by the time Council meets. An assessment will then be made with regard to their next move, it may well be back to the Boolardy-Kalli Rd. with some work on the Beringarra-Pindar Rd south of the Boolardy-Wooleen Rd. intersection.

#### SKA Route Upgrade Works

Since Council last met there has been a greater emphasis on maintenance, hopefully we will be able to once again focus on upgrade work in the run up to the Christmas break. These works have not been without their challenges at times. There was also a near miss incident between the Shire Road Train and a service vehicle heading to the SKA site.

#### MEG Meeting

Together with the CEO I attended the MEG meeting in Cue on 17 November 2023 and gave a brief report / summary of our Roads for Rehydration works at various points around the Shire. Several complimentary remarks were made about the works done on the Beringarra-Cue Rd.

#### Heritage Walkovers

Several Heritage walkovers were conducted from Tuesday 31 October to Thursday 2 November with various Yamatji mobs. I am pleased to report that no issues have been identified. One mob (Mullewa Wadjari) have insisted on spotters being present during the clearing and stockpiling phase. Next step is to acquire the clearing permits.

*Note Councillors discussed whether there was a to have spotters for clearing and stockpiling phase and if this was something that would be a regular feature moving forward. The Works Manager advised that in this instance it appeared to be a new requirement that this was part of the conditions associated with specific clearance application. Situation will be monitored for future applications.*

#### Sealing & Stabilisation Works

The Works Manager advised that prior to the meeting that the RFQ for sealing works on the Carnarvon-Mullewa Road had been evaluated with Bitutek being successful. RFQ for stabilisation works was in the process of being evaluated with an outcome expected shortly after the meeting.

**Recommendation**

That Council resolve that the Works Report be noted.

### Matter for Consideration

The Local Government (Financial Management) Regulations 1996 Regulation 34 requires that local government report monthly and prescribes what is required to be reported. Council is required to consider and receipt the Monthly Financial Statements.

### Comment

These statements are being presented to meet a statutory obligation to have each month's end and report presented within the following two months.

### Budget/Financial Implications:

Reports showing year to date financial performance allow monitoring of actual expenditure, revenue and overall results against budget targets.

### Consultation

RSM Australia

*Note prior to the meeting an addendum to the report was provided whereby duplicate income from Main Roads was removed. The Financial Report was then amended prior to its adoption.*

### 18.1 Murchison Regional Strategy

File: 4.71  
Author: Bill Boehm – Chief Executive Officer  
Interest Declared: No interest to disclose  
Date: 18 November 2023  
Attachments: 18.1.1 Murchison Regional Strategy 2023 – 2033

#### Matter for Consideration

Endorsement of the Murchison Regional Strategy as prepared by the Murchison Executive Group

#### Background

The Murchison Executive Group (MEG) has been working in conjunction with the Mid-West Development Commission and Regional Development Australia to create a strategic working document to guide the future direction of the Murchison Region.

The Murchison Regional Strategy (Strategy) provides a comprehensive road map for the sustainable development and growth of the Murchison Region. The Strategy examines the regions evolution over the next decade and beyond, identifying economic, environmental, and social challenges. The aim of the Strategy is to provide strategic direction and focus for the participating Councils in the Murchison Region to work collaboratively with Local, State and Federal Government resources to achieve desired outcomes for the future of the Murchison Region.

At the 16 November MEG Meeting the Group formally adopted the document with the intention that it be endorsed by each member Council and by the Murchison Country Zone of WALGA. At the 17 November 2023 Meeting of the Murchison Country Zone of WALGA, formal endorsement was obtained.

#### Comment

I understand that the Murchison Regional Strategy is an update from a previous 2015 version. It is extremely useful as amongst other things it allows each member council to reference this when making application for funds from external bodies. I have already used the draft in a recent Growing Regions Application. Formal Council endorsement is a logical and important step.

#### **Recommendation**

That Council endorse the Murchison Regional Strategy 2023 – 2033 as prepared by the Murchison Executive Group.

### 19.1 Roadhouse Fuel Price Review

File:	14.24
Author:	Bill Boehm – Chief Executive Officer
Interest Declared:	No interest to disclose
Date	18 November 2023
Attachments:	19.1.1 Policy 5.3 Roadhouse Fuel 19.1.2 Roadhouse Fuel Review

#### Matter for Consideration

Review of pricing of fuel at the Murchison Oasis Roadhouse.

#### Background

The retail price of fuel sold from the Murchison Oasis Roadhouse is determined under the Roadhouse Fuel Policy as attached. Essentially Council aims for the Shire to operate these facilities at neither a profit nor loss over the medium to long term with prices to be set through periodic reviews of operating and capital costs of the facilities with the % variation on the purchase price of fuel then reviewed and adjusted through an adopted variation to Councils Fees and Charges.

The last actual review of price was undertaken in October 2019 when the genesis policy was adopted and % markup changed from 10% to 15%.

At the July 2023 Annual Meeting of Electors. the matter of pricing of fuel was raised in General Business where it was resolved that “*Council be requested that to investigate the price of fuel charged at the Roadhouse with such review including comparisons with other outlets in the region.*”

This report addresses the current pricing regime and includes regional comparisons.

#### Review

The attached analysis comprises the following.

#### *Fig 1A Fuel Sales Annually & Fig 1B Fuels Sales Monthly*

Amount of fuel sold has increased by 8.6% since 2016/17 with additional increases in the 2020/21 and 2021/22 during the COVID19 years.

#### *Fig 2A Diesel Price and Fig 2B ULP Price*

Both graphs highlight huge increases of some 69% in the in the Average Price of fuel sold since 2020/21. Also of note is the increased variation between maximum and minimum.

In essence this increase would not have been envisaged when the markup was changed in 2019.

#### *Fig 3 Roadhouse Fuel Sales and Expenses*

This graph shows the Fuel sold against all of the relevant operating costs. Depreciation has been included but not any capital costs which in the future will increase when a point-of-sale system and new fuel dipping equipment is installed.

Given this since the price markup was increased from 10% to 15% in 2019 in my view the intent of the policy; “*to operate these facilities at neither a profit nor loss over the medium to long term with prices to be set through*

periodic reviews of operating and capital costs of the facilities, has been met. The additional revenue of some \$61,516 generated since 2019 is not insignificant and welcome.

Notwithstanding this, the significant increases in the cost of fuel since 2020/21 has meant that there may be justification for some tempering of the current markup. *Fig 5 Fuel Sales Options* provides some guidance if Council so chooses.

#### *Fig 4 Fuel Price Comparisons 16.11.23*

Graph shows price comparison with other outlets in the region at a particular date.

Comparisons at a particular time are inherently difficult as there are many factors that come into play such as local competition, business interaction with respect to accompanying facilities, fuel company discounts if any, cost of fuel delivered at any particular point of time, distance from Perth and throughput. All of these factors are unknown.

What is inherently likely is that the revenue generated by accompanying roadhouse or retail facilities with margins of 30% to 100% depending on product, would dwarf any fuel markup of say 10%. In our situation any visitor deciding to not purchase fuel would only save around \$3.20 to cover the distance from Murchison to Mullewa to purchase “cheaper fuel” and most likely still purchase food and beverages from the Roadhouse (if open) anyway. Unlike other locations which are mainly on main roads, any flow on benefit to roadhouse sales by lowering the price would be minuscule. All that would be achieved is increasing the costs to the Shire.

From this comparison not unexpectedly Gascoyne Junction and Murchison have markedly higher prices most likely due to distance from Perth and lack of throughput. That said, even Gascoyne Junction would have a higher throughput as they also have a larger operation including bar facilities. On this basis the price at Murchison doesn't appear unreasonable. Whilst variation in relation to other fuel outlets may elicit comments from customers the reasons are entirely explainable.

#### *Fig 5 Fuel Sales Options*

There are a number of potential options for variations to the current markup that Council could decide to choose if it so desires. These range for a reduction in % markup to a straight \$ per litre markup or to a % markup with a cap. The associated graphs highlight several. Whilst future capital costs have not been factored in the effects by comparing to current operating costs have been shown.

#### Comment

In summary given that Council will soon be up for additional capital costs when a point-of-sale system and new fuel dipping equipment is installed, I am of the view that there is no appreciable reason, other than perception, to alter the current pricing regime.

If a perception-based approach is a factor on the basis a simple reduction to 10% would see the following effects which looks significant but in real terms not significant for any individual transaction.

<b>Fuel</b>	<b>Current 15% markup</b>	<b>10% markup</b>
Diesel (cents per litre incl GST)	244.8	234.2
ULP (cents per litre incl GST)	248.5	237.0

#### Financial Implications

Financial implications in the attached analysis. Estimated Capital costs for a point-of-sale system are around \$21,578 with support costs of around \$5,640 annually thereafter. Approximately half of these costs would be apportioned to the fuel component of the Roadhouse operation. Costs of new fuel dipping equipment have yet to be determined.

**Recommendation**

That Council note the Chief Executive Officer’s Roadhouse Fuel Price Review Report

Voting Requirements

Simple Majority

<b>Council Decision</b>			
<b>Moved: Cr</b>	Q Fowler	<b>Seconded: Cr</b>	G Mead
That Council note the Chief Executive Officer’s Roadhouse Fuel Price Review Report			
<b>Carried</b>	<b>For</b>	6	<b>Against</b> 0

Outcomes Arising from the Report

Arising from discussions in relation to the Roadhouse Fuel Price Review Report the following were noted as follows.

*ULP Signage*

It was considered appropriate that the public be advised that the ULP provided at the Roadhouse be identified as ULP95 rather than ULP91 as may be incorrectly assumed by patrons.

*Fuel Supply*

Arrangements for the supply of fuel at the Roadhouse, Shire Works and Community were also discussed and was considered appropriate that given increased number of suppliers now available in the region that the Shire Fuel Supply Arrangements which include provisions for community access be market tested.

<b>Council Decision</b>			
<b>Moved: Cr</b>	A Whitmarsh	<b>Seconded: Cr</b>	E Foulkes-Taylor
That Council market test current Fuel Supply arrangements which include provisions for community access with a view to pursuing a contract for a minimum two-year period.

Date: 20 November 2023  
Attachments: 19.2.1 Murchison Shire Information Statement 2023

### Matter for Consideration:

Council to consider accepting the Murchison Shire Information Statement 2023

### Background

The Freedom of Information Act 1992 (FOI Act) created a general right of access to documents held by state and local government agencies. The FOI Act requires agencies, including local governments, to make available details about the kind of information they hold and enables persons to ensure that personal information held by government agencies about them is accurate, complete, up-to-date and not misleading.

Section 96 (1) of the Freedom of Information Act 1992 requires each government agency, including local governments, to prepare and publish annually, an Information Statement that includes the following:

- ~ the Agency's Mission Statement.
- ~ details of legislation administered.
- ~ details of the agency structure
- ~ details of decision-making functions
- ~ opportunities for public participation in the formulation of policy and performance of agency functions.
- ~ documents held by the agency.
- ~ the operation of FOI in the agency.

### Comment

It is the aim of the Murchison Shire to make information available promptly, at the least possible cost and wherever possible, documents will be provided outside the Freedom of Information (FOI) process.

### Statutory Environment

*Freedom of Information Act 1992*

*Local Government Act 1995 Division 7 Access to Information*

**19.3 Christmas Office & Roadhouse Closure**

File:

Author: Bill Boehm – Chief Executive Officer

Interest Declared: No interest to disclose

Date 20 November 2023

Attachments: Nil

Matter for Noting

Council to note arrangements for the annual Christmas shutdown period.

Background

In line with previous years well established practice the Office was closed for a two-week period. From all accounts this was well received by staff with minimal impact on the Councils operation.

Comment

In line with previous years well established practice and following discussions with staff it the administration office will be closed over the Christmas / New Year Period with Office being closed from Monday 18 December 2023 reopening on Tuesday 2 January 2024, after the Monday 1 January 2024 public holiday.

The Murchison Oasis Roadhouse and Caravan Park will be closed in line with Office Hours. Public toilets will remain open, and fuel will be available with 24-hour access to fuel bowser with card swipe facility.

18.11.2023	Catch up with Works Manager. Agenda Work.
19.11.2023 to 20.11,2023	Agenda Work.

Various aspects are specifically highlighted as follows.

### *Town Team Convergence Conference*

As foreshadowed at the last meeting, I along with the Senior Works Finance & Admin Officer attended the Town Teams Convergence Conference in Joondalup. Brochure describing content of meeting, which was attached as part of last month's Placemaking Item is again attached. There was no cost involved to attend the conference itself, and although not widely attended as I would have expected, the result was a significant success. The clearly committed strong support from the Minister and DLGSC was genuine and the skills, passion and commitment from the Town Convergence Team was notable. If it is replicated next year, it is suggested that we again attend, and if possible, make this a regular feature.

### *GRA Partners Pre-Budget Commitments Workshop*

As a GRA Client, albeit a fledgling one, we are able by invitation from GRA to participate in a range of regular client available briefings when they are conducted in Perth. In this instance I was in Perth and was able to attend in person in their Pre-Budget Commitments Workshop which included presentations from GRA staff who had recent experience working in the Labor Government Support Team and Treasury. External Labor and Liberal Perspectives were also provided.

### *MWDC Treasury Briefing*

Through the Mid-West Development Commission, I was able to attend via Teams a Local Government Roundtable with Commonwealth and State Treasury. In what is apparently an unusual occurrence, representatives from Treasury were in attendance in Geraldton with regional CEO's afforded an opportunity to present a basic 3–4-page summary of economic / social issues. In our instance the main focus was our "*punch above our weight*" approach, unique disadvantages, proactive development program and key message that we need modest infrastructure funding now and not flagging major treasury commitments later. Other Shires have greater expenditure needs and it was thought that at this stage a modest approach should be taken. The lack of a chlorinated water supply in Murchison was acknowledged.

### *MEG and WALGA Murchison Country Zone Meeting at Cue*

As usual both MEG and WALGA Murchison Country Zone Meetings were worth attending as was the Cue Calcutta, which I have up until this stage never attended. The Works Manager's Roads to Rehydration Presentation was well received at the MEG Meeting. Both meetings received a brief presentation from the Regional Australia Institute outlining the Murchison Regional Profile - RDA Mid-West Gascoyne as per the attached extract. Work done by the RDA Mid-West Gascoyne as well as MWDC continues to impress.

### *Recruitment*

As verbally advised and outlined above, recruitment packages for various staff positions (Mechanic, Plant Operators (2), Community Role, Finance Administration Officer and an additional Gardener) have been prepared. Advertisements are in the process of being actioned. Part of the target is to recruit persons with partners that could potentially fill a position other than each prospective primary role. Due to the end of year Christmas / New Year period there is no specific closing date, but applications received before 5 December 2023 will be considered as soon as practicable, otherwise a mid-January outcome is being aimed for.
