Compilation Report

To the Council

Shire of Murchison

Scope

We have compiled the accompanying special purpose financial statements.

The specific purpose for which the special purpose financial report has been prepared is to provide information relating to the financial performance and financial position of the Shire that satisfies the information needs of the Council and the *Local Government Act 1995* and associated regulations.

The responsibility of the Shire

The Shire is solely responsible for the information contained in the special purpose financial report and have determined that the accounting policies used are consistent and are appropriate to satisfy the requirements of the Council and the *Local Government Act 1995* and associated regulations.

Our responsibility

On the basis of information provided by the Shire, we have compiled the accompanying special purpose financial statements in accordance with the significant accounting policies adopted as set out in Note 1 to the financial statements and APES 315: Compilation of Financial Information.

Our procedures use accounting expertise to collect, classify and summarise the financial information, which the Management provided, into a financial report. Our procedures do not include any verification or validation procedures. No audit or review has been performed and accordingly no assurance is expressed.

To the extent permitted by law, we do not accept liability for any loss or damage which any person, other than the Shire of Murchison, may suffer arising from negligence on our part.

This report was prepared for the benefit of the Council of the Shire of Murchison and the purpose identified above. We do not accept responsibility to any other person for the content of the report.

SHIRE OF MURCHISON
NOTES TO THE STATEMENT OF FINANCIAL ACTIVITY
For the Period Ending 31 December 2024

1. SIGNIFICANT ACCOUNTING POLICIES

This report is prepared to meet the requirements of *Local Government (Financial Management) Regulations 1996 Regulation 34*.

The material variance adopted by the Shire of Murchison for the 2024/25 year is \$10,000 or 10%, whichever is greater. Items considered to be of material variance are disclosed in Note 2.

The statements and accompanying notes are prepared based on all transactions recorded at the time of preparation and may vary due to transactions being processed for the reporting period after the date of preparation. The preparation also requires management to make judgements, estimates and assumptions which effect the application of policies and the reported amounts in the statements and notes. These estimated figures are based on historical experience or other factors believed to be reasonable under the circumstances. Therefore, the actual results may differ from these reported amounts.

Actual and Budget comparatives are presented in year to date format unless otherwise stated. The Adopted Budget is used in the report until superseded by the Budget Review.

Preparation

Prepared by: Bertus Lochner
 Reviewed by: Travis Bate
 Date prepared: 06 Feb 25

(a) Basis of Preparation

The following financial statements are special purpose financial statements that have been prepared in accordance with the Australian Accounting Standards, Authoritative Interpretations, the *Local Government Act 1995*, and regulations, within the context in which they relate to local governments and not-for-profit entities.

With the exception of the cash flow statement and rate setting information, the following report has been prepared on an accrual basis with balances measured at historical cost unless subject to fair value adjustments. Items subject to fair value adjustments include certain non-current assets, financial assets, and financial liabilities. Items such as assets, liabilities, equity, income and expenses have been recognised in accordance with the definitions and recognition criteria set out in the Framework for the Preparation and Presentation of Financial Statements.

These financial statements comply with, and supersede, the Australian Accounting Standards with the *Local Government (Financial Management) Regulations 1996* where applicable. Further information is provided in Note 1(i).

The functional and presentation currency of the report is Australian dollars.

(b) The Local Government Reporting Entity

The Australian Accounting Standards define local government as a reporting entity which can be a single entity or a group comprising a parent and all its subsidiaries. All funds controlled by the Shire in order to provide its services have formed part of the following report. Transactions and balances related to these controlled funds, such as transfers to and from reserves, were eliminated during the preparation of the report.

Funds held in Trust, which are controlled but not owned by the Shire, do not form part of the financial statements. Further information on the Shire funds in Trust are provided in Note 5.

(c) Rounding of Amounts

The Shire is an entity to which the *Local Government (Financial Management) Regulations 1996* applies and, accordingly amounts in the financial report have been rounded to the dollar except for amounts shown as a rate in the dollar. Where total assets exceed \$10,000,000 in the prior audited annual financial report, the amounts may be rounded to the nearest \$1,000.

SHIRE OF MURCHISON
NOTES TO THE STATEMENT OF FINANCIAL ACTIVITY
For the Period Ending 31 December 2024

1. SIGNIFICANT ACCOUNTING POLICIES (Continued)

(d) Goods and Services Tax (GST)

Revenue, expenses and assets are recognised net of the amount of goods and services tax (GST), except where the amount of GST incurred is not recoverable from the Australian Taxation Office (ATO).

Receivables and payables are stated inclusive of GST receivable or payable. The net amount of GST recoverable from, or payable to, the ATO is included with receivables or payables in the statement of financial position.

(e) Superannuation

The Shire contributes to a number of superannuation funds on behalf of employees. All funds to which the Shire contributes are defined contribution plans.

(f) Cash and Cash Equivalents

Cash and cash equivalents normally include cash on hand, cash at bank, deposits on demand with banks, other short term highly liquid investments that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value and bank overdrafts. Bank overdrafts are shown as short term borrowings in current liabilities in Note 3 - Net Current Assets.

(g) Financial Assets at Amortised Cost

The Shire classifies financial assets at amortised cost if both of the following criteria are met:

- the asset is held within a business model whose objective is to collect the contractual cashflows, and
- the contractual terms give rise to cash flows that are solely payments of principal and interest.

(h) Inventories

General

Inventories are measured at the lower of cost and net realisable value. Net realisable value is the estimated selling price in the ordinary course of business less the estimated costs related to completion and its sale.

Land Held for Resale

Land held for development and sale is valued at the lower of cost and net realisable value. Cost includes the cost of acquisition, development, borrowing costs and holding costs until completion of development. Finance costs and holding charges incurred after development is completed are expensed. Gains and losses are recognised in profit or loss at the time of signing an unconditional contract of sale if significant risks and rewards, and effective control over the land, are passed on to the buyer at this point. Land held for sale is classified as current except where it is held as non-current based on Council's intentions to release for sale.

(i) Trade and Other Receivables

Trade and other receivables include amounts due from ratepayers for unpaid rates and service charges and other amounts due from third parties for grants, contributions, reimbursements, and goods sold and services performed on the ordinary course of business.

Trade and other receivables are recognised initially at the amount of consideration that is unconditional, unless they contain significant financing components, when they are recognised at fair value.

Trade receivables are held with the objective to collect the contractual cashflows and therefore the Shire measures them subsequently at amortised cost using the effective interest rate method.

Due to the short term nature of current receivables, their carrying amount is considered to be the same as their fair value. Non-current receivables are indexed to inflation, any difference between the face value and fair value is considered immaterial.

The Shire applies the AASB 9 simplified approach to measuring expected credit losses using a lifetime expected credit loss allowance for all trade receivables. To measure the expected credit losses, rates receivables are separated from other trade receivables due to the difference in payment terms and security for rates receivable.

1. SIGNIFICANT ACCOUNTING POLICIES (Continued)

(j) Fixed Assets

Each class of fixed assets within either plant and equipment or infrastructure, is carried at cost or fair value less, where applicable, any accumulated depreciation and impairment losses.

Recognition of Assets

Assets for which the fair value as at the date of acquisition is under \$5,000 are not recognised as an asset in accordance with Financial Management Regulation 17A (5). These assets are expensed immediately.

Where multiple individual low value assets are purchased together as part of a larger asset or collectively forming a larger asset exceeding the threshold, the individual assets are recognised as one asset and capitalised.

Gains and Losses on Disposal

Gains and losses on disposals are determined by comparing proceeds with the carrying amount. These gains and losses are included in profit or loss in the period which they arise.

(i) Depreciation of Non-current Assets

The depreciable amount of fixed assets included in buildings but excluding freehold land, are depreciated on a straight-line basis over the individual asset's useful life from the time the asset is held ready for use. Leasehold improvements are depreciated over the shorter of either the unexpired period of the lease or the estimated useful life of the improvements.

The assets residual values and useful lives are reviewed and adjusted if appropriate, at the end of each reporting period.

An asset's carrying amount is written down immediately to its recoverable amount if the asset's carrying amount is greater than its estimated recoverable amount.

Major depreciation periods used for each class of depreciable asset are:

Asset Class	Useful life
Buildings & Improvements	7 to 90 years
Furniture and equipment	3 to 25 years
Plant and equipment	5 to 20 years
Sealed roads and streets formation	not depreciated
pavement	12 years
seal	10 years
- bituminous seals	20 years
- asphalt surfaces	25 years
Gravel roads formation	not depreciated
pavement	45 years
Footpaths	10 years
Culverts	60 years
Signs	20 years
Stock Grids	80 years
Floodways	21 years
Water supply piping and drainage systems	75 years
Bridges	80 years

SHIRE OF MURCHISON**NOTES TO THE STATEMENT OF FINANCIAL ACTIVITY****For the Period Ending 31 December 2024****1. SIGNIFICANT ACCOUNTING POLICIES (Continued)****(l) Trade and Other Payables**

Trade and other payables represent liabilities for goods and services provided to the Shire prior to the end of the financial year that are unpaid and arise when the Shire becomes obliged to make future payments in respect of the purchase of these goods and services. The amounts are unsecured, are recognised as a current liability and are normally paid within 30 days of recognition. The carrying amounts of trade and other payables are considered to be the same as their fair values, due to their short-term nature.

(m) Prepaid Rates

Prepaid rates are, until the taxable event has occurred (start of the next financial year), refundable at the request of the ratepayer. Rates received in advance are initially recognised as a financial liability. When the taxable event occurs, the financial liability is extinguished and the Shire recognises revenue for the prepaid rates that have not been refunded.

(n) Employee Benefits**Short-term employee benefits**

Provision is made for the Shire's obligation for short-term employee benefits. Short term employee benefits are benefits (other than termination benefits) that are expected to be settled wholly before 12 months after the end of the annual reporting period in which the employees render the related service, including wages, salaries and sick leave. Short-term employee benefits are measured at the (undiscounted) amounts expected to be paid when the obligation is settled. The Shire's obligations for short-term employee benefits such as wages, salaries and sick leave are recognised as a part of current trade and other payables in the determination of the net current asset position. The Shire's obligations for employees' annual leave and long service leave entitlements are recognised as provisions in the determination of the net current asset position.

Other long-term employee benefits

Long-term employee benefits provisions are measured at the present value of the expected future payments to be made to employees. Expected future payments incorporate anticipated future wage and salary levels, durations of service and employee departures and are discounted at rates determined by reference to market yields at the end of the reporting period on government bonds that have maturity dates that approximate the terms of the obligations. Any remeasurements for changes in assumptions of obligations for other long-term employee benefits are recognised in profit or loss in the periods in which the changes occur.

The Shire's obligations for long-term employee benefits are presented as non-current provisions in the statement of financial position, except where the Shire does not have an unconditional right to defer settlement for at least 12 months after the end of the reporting period, in which case the obligations are presented as current provisions.

(o) Interest-bearing Loans and Borrowings

All loans and borrowings are initially recognised at the fair value of the consideration received less directly attributable transaction costs. Subsequent measurement is at amortised cost using the effective interest method. The annual government guarantee fee is expensed in the year incurred.

Borrowings are classified as current liabilities unless the Council has an unconditional right to defer settlement of the liability for at least 12 months after the balance sheet date.

Borrowing Costs

The Shire has elected to recognise borrowing costs as an expense when incurred regardless of how the borrowings are applied. Fair values of borrowings are not materially different to their carrying amount, since the interest payable on those borrowings is either close to current market rates or the borrowings are of a short term nature. Borrowings fair values are based on the discounted cash flows using a current borrowing rate. They are classified as level 3 fair values in the fair value hierarchy due to the unobservable inputs, including own credit risk.

(p) Provisions

Provisions are recognised when the Shire has a present legal or constructive obligation, as a result of past events, for which it is probable that an outflow of economic benefits will result and that outflow can be reliably measured. Provisions are measure using the best estimate of the amounts required to settle the obligation at the end of the reporting period.

1. SIGNIFICANT ACCOUNTING POLICIES (Continued)

(q) Contract Liabilities

Contract liabilities represent the Shire's obligation to transfer goods or services to a customer for which the Shire has received consideration from the customer.

Contract liabilities represent obligations which are not yet satisfied. Contract liabilities are recognised as revenue when the performance obligations in the contract are satisfied.

(r) Current and Non-current Classification

The asset or liability is classified as current if it is expected to be settled within the next 12 months, being the Shire's operational cycle. In the case of liabilities where the Shire does not have the unconditional right to defer settlement beyond 12 months, such as vested long service leave, the liability is classified as current even if not expected to be settled within the next 12 months. Inventories held for trading are classified as current or non-current based on the Shire's intentions to release for sale.

(p) Nature or Type Classifications

Rates

All rates levied under the *Local Government Act 1995*. Includes general, differential, specific area rates, minimum rates, interim rates, back rates, ex-gratia rates, less discounts offered. Exclude administration fees, interest on instalments, interest on arrears and service charges.

Compilation Report

To the Council

Shire of Murchison

Scope

We have compiled the accompanying special purpose financial statements.

The specific purpose for which the special purpose financial report has been prepared is to provide information relating to the financial performance and financial position of the Shire that satisfies the information needs of the Council and the *Local Government Act 1995* and associated regulations.

The responsibility of the Shire

The Shire is solely responsible for the information contained in the special purpose financial report and have determined that the accounting policies used are consistent and are appropriate to satisfy the requirements of the Council and the *Local Government Act 1995* and associated regulations.

Our responsibility

On the basis of information provided by the Shire, we have compiled the accompanying special purpose financial statements in accordance with the significant accounting policies adopted as set out in Note 1 to the financial statements and APES 315: Compilation of Financial Information.

Our procedures use accounting expertise to collect, classify and summarise the financial information, which the Management provided, into a financial report. Our procedures do not include any verification or validation procedures. No audit or review has been performed and accordingly no assurance is expressed.

To the extent permitted by law, we do not accept liability for any loss or damage which any person, other than the Shire of Murchison, may suffer arising from negligence on our part.

This report was prepared for the benefit of the Council of the Shire of Murchison and the purpose identified above. We do not accept responsibility to any other person for the content of the report.

SHIRE OF MURCHISON
NOTES TO THE STATEMENT OF FINANCIAL ACTIVITY
For the Period Ending 31 January 2025

1. SIGNIFICANT ACCOUNTING POLICIES

This report is prepared to meet the requirements of *Local Government (Financial Management) Regulations 1996 Regulation 34*.

The material variance adopted by the Shire of Murchison for the 2024/25 year is \$10,000 or 10%, whichever is greater. Items considered to be of material variance are disclosed in Note 2.

The statements and accompanying notes are prepared based on all transactions recorded at the time of preparation and may vary due to transactions being processed for the reporting period after the date of preparation. The preparation also requires management to make judgements, estimates and assumptions which effect the application of policies and the reported amounts in the statements and notes. These estimated figures are based on historical experience or other factors believed to be reasonable under the circumstances. Therefore, the actual results may differ from these reported amounts.

Actual and Budget comparatives are presented in year to date format unless otherwise stated. The Adopted Budget is used in the report until superseded by the Budget Review.

Preparation

Prepared by: Bertus Lochner
 Reviewed by: Travis Bate
 Date prepared: 21 Feb 25

(a) Basis of Preparation

The following financial statements are special purpose financial statements that have been prepared in accordance with the Australian Accounting Standards, Authoritative Interpretations, the *Local Government Act 1995*, and regulations, within the context in which they relate to local governments and not-for-profit entities.

With the exception of the cash flow statement and rate setting information, the following report has been prepared on an accrual basis with balances measured at historical cost unless subject to fair value adjustments. Items subject to fair value adjustments include certain non-current assets, financial assets, and financial liabilities. Items such as assets, liabilities, equity, income and expenses have been recognised in accordance with the definitions and recognition criteria set out in the Framework for the Preparation and Presentation of Financial Statements.

These financial statements comply with, and supersede, the Australian Accounting Standards with the *Local Government (Financial Management) Regulations 1996* where applicable. Further information is provided in Note 1(i).

The functional and presentation currency of the report is Australian dollars.

(b) The Local Government Reporting Entity

The Australian Accounting Standards define local government as a reporting entity which can be a single entity or a group comprising a parent and all its subsidiaries. All funds controlled by the Shire in order to provide its services have formed part of the following report. Transactions and balances related to these controlled funds, such as transfers to and from reserves, were eliminated during the preparation of the report.

Funds held in Trust, which are controlled but not owned by the Shire, do not form part of the financial statements. Further information on the Shire funds in Trust are provided in Note 5.

(c) Rounding of Amounts

The Shire is an entity to which the *Local Government (Financial Management) Regulations 1996* applies and, accordingly amounts in the financial report have been rounded to the dollar except for amounts shown as a rate in the dollar. Where total assets exceed \$10,000,000 in the prior audited annual financial report, the amounts may be rounded to the nearest \$1,000.

NOTES TO THE STATEMENT OF FINANCIAL ACTIVITY
For the Period Ending 31 January 2025

1. SIGNIFICANT ACCOUNTING POLICIES (Continued)

(d) Goods and Services Tax (GST)

Revenue, expenses and assets are recognised net of the amount of goods and services tax (GST), except where the amount of GST incurred is not recoverable from the Australian Taxation Office (ATO).

Receivables and payables are stated inclusive of GST receivable or payable. The net amount of GST recoverable from, or payable to, the ATO is included with receivables or payables in the statement of financial position.

(e) Superannuation

The Shire contributes to a number of superannuation funds on behalf of employees. All funds to which the Shire contributes are defined contribution plans.

(f) Cash and Cash Equivalents

Cash and cash equivalents normally include cash on hand, cash at bank, deposits on demand with banks, other short term highly liquid investments that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value and bank overdrafts. Bank overdrafts are shown as short term borrowings in current liabilities in Note 3 - Net Current Assets.

(g) Financial Assets at Amortised Cost

The Shire classifies financial assets at amortised cost if both of the following criteria are met:

- the asset is held within a business model whose objective is to collect the contractual cashflows, and
- the contractual terms give rise to cash flows that are solely payments of principal and interest.

(h) Inventories

General

Inventories are measured at the lower of cost and net realisable value. Net realisable value is the estimated selling price in the ordinary course of business less the estimated costs related to completion and its sale.

Land Held for Resale

Land held for development and sale is valued at the lower of cost and net realisable value. Cost includes the cost of acquisition, development, borrowing costs and holding costs until completion of development. Finance costs and holding charges incurred after development is completed are expensed. Gains and losses are recognised in profit or loss at the time of signing an unconditional contract of sale if significant risks and rewards, and effective control over the land, are passed on to the buyer at this point. Land held for sale is classified as current except where it is held as non-current based on Council's intentions to release for sale.

(i) Trade and Other Receivables

Trade and other receivables include amounts due from ratepayers for unpaid rates and service charges and other amounts due from third parties for grants, contributions, reimbursements, and goods sold and services performed on the ordinary course of business.

Trade and other receivables are recognised initially at the amount of consideration that is unconditional, unless they contain significant financing components, when they are recognised at fair value.

Trade receivables are held with the objective to collect the contractual cashflows and therefore the Shire measures them subsequently at amortised cost using the effective interest rate method.

Due to the short term nature of current receivables, their carrying amount is considered to be the same as their fair value. Non-current receivables are indexed to inflation, any difference between the face value and fair value is considered immaterial.

The Shire applies the AASB 9 simplified approach to measuring expected credit losses using a lifetime expected credit loss allowance for all trade receivables. To measure the expected credit losses, rates receivables are separated from other trade receivables due to the difference in payment terms and security for rates receivable.

1. SIGNIFICANT ACCOUNTING POLICIES (Continued)

(j) Fixed Assets

Each class of fixed assets within either plant and equipment or infrastructure, is carried at cost or fair value less, where applicable, any accumulated depreciation and impairment losses.

Recognition of Assets

Assets for which the fair value as at the date of acquisition is under \$5,000 are not recognised as an asset in accordance with Financial Management Regulation 17A (5). These assets are expensed immediately.

Where multiple individual low value assets are purchased together as part of a larger asset or collectively forming a larger asset exceeding the threshold, the individual assets are recognised as one asset and capitalised.

Gains and Losses on Disposal

Gains and losses on disposals are determined by comparing proceeds with the carrying amount. These gains and losses are included in profit or loss in the period which they arise.

(i) Depreciation of Non-current Assets

The depreciable amount of fixed assets included in buildings but excluding freehold land, are depreciated on a straight-line basis over the individual asset's useful life from the time the asset is held ready for use. Leasehold improvements are depreciated over the shorter of either the unexpired period of the lease or the estimated useful life of the improvements.

The assets residual values and useful lives are reviewed and adjusted if appropriate, at the end of each reporting period.

An asset's carrying amount is written down immediately to its recoverable amount if the asset's carrying amount is greater than its estimated recoverable amount.

Major depreciation periods used for each class of depreciable asset are:

Asset Class	Useful life
Buildings & Improvements	7 to 90 years
Furniture and equipment	3 to 25 years
Plant and equipment	5 to 20 years
Sealed roads and streets formation	not depreciated
pavement	12 years
seal	10 years
- bituminous seals	20 years
- asphalt surfaces	25 years
Gravel roads formation	not depreciated
pavement	45 years
Footpaths	10 years
Culverts	60 years
Signs	20 years
Stock Grids	80 years
Floodways	21 years
Water supply piping and drainage systems	75 years
Bridges	80 years

NOTES TO THE STATEMENT OF FINANCIAL ACTIVITY
For the Period Ending 31 January 2025

1. SIGNIFICANT ACCOUNTING POLICIES (Continued)

(l) Trade and Other Payables

Trade and other payables represent liabilities for goods and services provided to the Shire prior to the end of the financial year that are unpaid and arise when the Shire becomes obliged to make future payments in respect of the purchase of these goods and services. The amounts are unsecured, are recognised as a current liability and are normally paid within 30 days of recognition. The carrying amounts of trade and other payables are considered to be the same as their fair values, due to their short-term nature.

(m) Prepaid Rates

Prepaid rates are, until the taxable event has occurred (start of the next financial year), refundable at the request of the ratepayer. Rates received in advance are initially recognised as a financial liability. When the taxable event occurs, the financial liability is extinguished and the Shire recognises revenue for the prepaid rates that have not been refunded.

(n) Employee Benefits

Short-term employee benefits

Provision is made for the Shire's obligation for short-term employee benefits. Short term employee benefits are benefits (other than termination benefits) that are expected to be settled wholly before 12 months after the end of the annual reporting period in which the employees render the related service, including wages, salaries and sick leave. Short-term employee benefits are measured at the (undiscounted) amounts expected to be paid when the obligation is settled. The Shire's obligations for short-term employee benefits such as wages, salaries and sick leave are recognised as a part of current trade and other payables in the determination of the net current asset position. The Shire's obligations for employees' annual leave and long service leave entitlements are recognised as provisions in the determination of the net current asset position.

Other long-term employee benefits

Long-term employee benefits provisions are measured at the present value of the expected future payments to be made to employees. Expected future payments incorporate anticipated future wage and salary levels, durations of service and employee departures and are discounted at rates determined by reference to market yields at the end of the reporting period on government bonds that have maturity dates that approximate the terms of the obligations. Any remeasurements for changes in assumptions of obligations for other long-term employee benefits are recognised in profit or loss in the periods in which the changes occur.

The Shire's obligations for long-term employee benefits are presented as non-current provisions in the statement of financial position, except where the Shire does not have an unconditional right to defer settlement for at least 12 months after the end of the reporting period, in which case the obligations are presented as current provisions.

(o) Interest-bearing Loans and Borrowings

All loans and borrowings are initially recognised at the fair value of the consideration received less directly attributable transaction costs. Subsequent measurement is at amortised cost using the effective interest method. The annual government guarantee fee is expensed in the year incurred.

Borrowings are classified as current liabilities unless the Council has an unconditional right to defer settlement of the liability for at least 12 months after the balance sheet date.

Borrowing Costs

The Shire has elected to recognise borrowing costs as an expense when incurred regardless of how the borrowings are applied. Fair values of borrowings are not materially different to their carrying amount, since the interest payable on those borrowings is either close to current market rates or the borrowings are of a short term nature. Borrowings fair values are based on the discounted cash flows using a current borrowing rate. They are classified as level 3 fair values in the fair value hierarchy due to the unobservable inputs, including own credit risk.

(p) Provisions

Provisions are recognised when the Shire has a present legal or constructive obligation, as a result of past events, for which it is probable that an outflow of economic benefits will result and that outflow can be reliably measured. Provisions are measure using the best estimate of the amounts required to settle the obligation at the end of the reporting period.

For the Period Ending 31 January 2025

1. SIGNIFICANT ACCOUNTING POLICIES (Continued)

(q) Contract Liabilities

Contract liabilities represent the Shire's obligation to transfer goods or services to a customer for which the Shire has received consideration from the customer.

Contract liabilities represent obligations which are not yet satisfied. Contract liabilities are recognised as revenue when the performance obligations in the contract are satisfied.

(r) Current and Non-current Classification

The asset or liability is classified as current if it is expected to be settled within the next 12 months, being the Shire's operational cycle. In the case of liabilities where the Shire does not have the unconditional right to defer settlement beyond 12 months, such as vested long service leave, the liability is classified as current even if not expected to be settled within the next 12 months. Inventories held for trading are classified as current or non-current based on the Shire's intentions to release for sale.

(p) Nature or Type Classifications

Rates

All rates levied under the *Local Government Act 1995*. Includes general, differential, specific area rates, minimum rates, interim rates, back rates, ex-gratia rates, less discounts offered. Exclude administration fees, interest on instalments, interest on arrears and service charges.

Dear Murchison Shire CEO and Councillors,

Thank you for your recent communication regarding the latest decisions made by the Council. We have recently held our AGM and have some enquiries regarding some of the matters decided.

1. **Constitution:** As per point 2, please find a copy of our club's constitution.
2. **Community Centre Hire Fees:** Regarding the hire fees associated with the community centre, can we please be provided with a reason as to why eleven other organizations are exempt from these hire fees, as listed on the website. Historically the Murchison Polocrosse Club has been exempt from these fees due to their initial help with the establishment of the community centre. Furthermore, if we are paying fees to hire the community centre why would we then be responsible for the stocking of the sports club ablutions during this event?
3. **Sports Club Bar:** As per point 4, with the sports club becoming solely responsible for the sale of alcohol within the community centre we have several concerns and questions.
 - Firstly, is this at all negotiable? The loss of profit from our bar sales will be significantly impact the financial viability of our carnival and therefore the future running of this event. As shown on the attached Profit and Loss the bar made a profit of \$5969.01 but the overall profit for the year is currently \$2168.27 (Please note this is not reflective of the \$1000 requested donation that is yet to be made to the Murchison Shire before the end of the calendar year) showing that the profit of the bar for the running of the polocrosse event is crucial to the future running of the event.
 - As in the Policy Provisions set out by the Shire Council for the Sports Club Bar that the Sports Club is able, with consent of Council, to sublet or assign use of the bar facilities to a third party. Would this be a suitable option?
 - If we are hiring the community centre does this allow us access to the bar room during all hours to use the PA System which is owned by the Polocrosse Club, and currently set up in this space and utilised by other community groups.
 - We also have some concerns regarding the opening hours and staffing of the bar during the 3-day event. Our usual opening hours are Friday 5pm-12am, Saturday 12pm-12am and Sunday 12pm-10pm. Will the Sports Club be able to commit to this as we feel it

would be a great loss to the atmosphere and running of the tournament without these hours?

4. **Shire Support and Caravan Park Fees:** In relation to point 5 and 6 together, we would like to thank the shire for its continued ground support by Works and Services Staff prior to, during and after the event. However, there are a few questions regarding the specifics of these.
- Is the \$15 bush camping fee negotiable at all and can we please have this clarified as to if it is per campsite or per vehicle? It is our understanding that during our past conversations and in previous shire discussions and minutes that this was only to be introduced as \$10.
 - If there is an expectation for our patrons to be paying the bush camping fee to the caravan park, why is the expectation then on the Murchison Polocrosse Club to be responsible for the cleaning and restocking of all consumables for all the ablutions over that period? Whilst the polocrosse club built and has previously maintained the polocrosse toilets located near the yards, if the shire will be collecting camping fees for this area will they now be responsible for the maintenance of these facilities?
 - As per the usual caravan park fees, we have always advertised and expected polocrosse players, spectators and visitors to book and pay through the caravan park. This is not something we police as it is our understanding that this will fall under the caravan parks responsibilities.

Thank you for reading our questions and concerns we look forward to hearing your response. We are hopeful that we can work together, as we have done for the previous 42 years, to hold another successful event in 2025 and years to come.

Yours sincerely

Murchison Polocrosse Club

Murchison Polocrosse Letter Review 13.12.24

The following brief comments are provided with respect to the Murchison Polocrosse Club letter sent to Council on 11 December 2024.

1 *Constitution: As per point 2, please find a copy of our club's constitution*

The Constitution includes the following Objects of the association:

- (1) *The objects of the Association are-*
 - (a) *To further the interest and participation in equine sport particularly polocrosse.*
 - (b) *To develop and maintain a place in the area of Murchison for the congregation of persons interested in equine sport.*
 - (c) *To participate in the sport of polocrosse by providing opportunity for its members to play polocrosse at club, zone, state and national levels.*
 - (d) *to do all things necessary and incidental to the objects described in (a) – (c) inclusive.*

Points (a) & (c) above directly refer to those participating with an interest and participation in equine sport. As such, the focus of the Association is about equine sport in general meaning that the Association has no direct focus on the Murchison Shire with benefit of others primarily from outside of the district.

The reference in (b) to Murchison only relates the development and maintenance of a place in the area of Murchison for the congregation of persons interested in equine sport. Again, there is no direct correlation with the Murchison Shire other than in relation to the maintenance of facilities for the benefit of others primarily from outside of the district.

2 *Community Centre Hire Fees: Regarding the hire fees associated with the community centre, can we please be provided with a reason as to why eleven other organizations are exempt from these hire fees, as listed on the website. Historically the Murchison Polocrosse Club has been exempt from these fees due to their initial help with the establishment of the community centre. Furthermore, if we are paying fees to hire the community centre why would we then be responsible for the stocking of the sports club ablutions during this event?*

The organisations specified as exempt are local Murchison based entities who amongst other things actively and directly support the Murchison Shire community. The Murchison Polocrosse Club does not have this as its primary focus, a fact supported by the Clubs Constitution.

We have no specific knowledge of the rationale for any historical wavering of hire fees for Polocrosse but presumably it would have related to the fact that Murchison Shire residents were then once a key user of the facility and at one stage entered a team made up from Stations within the Shire. Council has obviously considered this aspect historically by not specifically having the Polocrosse Club listed as exempt. It also ignores the significant costs that Council incurs annually and potentially into the future associated with this event.

In any event the hire fees are set for every hirer. Any additional fees incurred for the hirer to run the event would be charged at cost plus as per Council's adopted fees and charges. For Polocrosse events these normal fees are effectively waived and are not insignificant.

The fees and charges for the hire of the community centre are set by Council and contribute towards basic upkeep and maintenance supporting the use of the facility by all hirers. When hirers hire Council venues it is dry hire, we do not supply any staff therefore a multi-day booking would require the hirers to restock provisions for patron comfort.

3 **Sports Club Bar:** *As per point 4, with the sports club becoming solely responsible for the sale of alcohol within the community centre we have several concerns and questions.*

- *Firstly, is this at all negotiable? The loss of profit from our bar sales will be significantly impact the financial viability of our carnival and therefore the future running of this event. As shown on the attached Profit and Loss the bar made a profit of \$5969.01 but the overall profit for the year is currently \$2168.27 (Please note this is not reflective of the \$1000 requested donation that is yet to be made to the Murchison Shire before the end of the calendar year) showing that the profit of the bar for the running of the polocrosse event is crucial to the future running of the event.*

Council has considered this matter already and was of the view when it established the Sports Club Policy that it was essential to support what is effectively the only locally based incorporated association within the Shire.

On review of the financial information as summarised in the attached financials, it would seem that this relates to the entire Association, albeit with the majority of income and expenses relating to the event. In any event the bar has made approximately \$14,500 over the past two years suggesting that there is adequate scope for the Sports Club to make a modest return though negotiations without substitutionally affecting the future running of the event in recognition that to a large extent the potential bar takings are determined by polocrosse patrons. As also shown, there is the very significant financial contribution that the Shire currently makes.

We have provided the Murchison Sports Club the opportunity to run the bar how they see fit. This would be best discussed directly with the Sports Club, we cannot make this decision on their behalf.

- *As in the Policy Provisions set out by the Shire Council for the Sports Club Bar that the Sports Club is able, with consent of Council, to sublet or assign use of the bar facilities to a third party. Would this be a suitable option?*

This would undermine the intent of the policy. There is ample scope for the Polocrosse Club to enter into mutually beneficial arrangements with the Sports Club

- *If we are hiring the community centre does this allow us access to the bar room during all hours to use the PA System which is owned by the Polocrosse Club, and currently set up in this space and utilised by other community groups.*

This is an operational issue and would require a discussion to be had with the Murchison Sports Club but one would expect that it should not be affected

- *We also have some concerns regarding the opening hours and staffing of the bar during the 3-day event. Our usual opening hours are Friday 5pm-12am, Saturday 12pm-12am and Sunday 12pm-10pm. Will the Sports Club be able to commit to this as we feel it would be a great loss to the atmosphere and running of the tournament without these hours?*

Opening hours of any liquor facility on Settlement grounds need to be approved by the Murchison Shire CEO as the land holder. The opening hours would be best discussed with the Sports Club and the plan provided to the Shire for approval and support for liquor licensing bodies.

The Shire has historically accepted these operating hours for the bar. There has been some concern raised with respect to noise on the Saturday but otherwise the issue raised is one for the Sports Club to deal with.

4. ***Shire Support and Caravan Park Fees:*** *In relation to point 5 and 6 together, we would like to thank the shire for its continued ground support by Works and Services Staff prior to, during and after the event. However, there are a few questions regarding the specifics of these.*

- *Is the \$15 bush camping fee negotiable at all and can we please have this clarified as to if it is per campsite or per vehicle? It is our understanding that during our past conversations and in previous shire discussions and minutes that this was only to be introduced as \$10.*

The bush camping fee has been adopted by the Shire in the latest budget and therefore is applicable to all that use the facility, internally or externally. The fee is per campsite and normal terms and conditions of the campground apply. The maximum for each camp site is notional set at 4 adults+2 children. The fee is charged to all patrons on a per site per night basis and applies to all events not just Polocrosse. In 2025 the recently completed second ablution block will come on line and be available for all patrons.

- *If there is an expectation for our patrons to be paying the bush camping fee to the caravan park, why is the expectation then on the Murchison Polocrosse Club to be responsible for the cleaning and restocking of all consumables for all the ablutions over that period? Whilst the polocrosse club built and has previously maintained the polocrosse toilets located near the yards, if the shire will be collecting camping fees for this area will they now be responsible for the maintenance of these facilities?*

As indicated in previous advice given to the Polocrosse Club the additional responsibilities expected of them relate to reducing the Shires costs. They do not relate to camping fees charged. The toilets provided near the stables are only in use for the Polocrosse event and therefore the responsibility for stocking items remains with the Polocrosse Club.

The bush camping fees contribute, like other caravan park fees, to the maintenance of existing facilities. While there are toilets and showers available in this area patrons are also able to use any ablution they choose in the settlement as well as the new splash pad and for those who have paid for camping sites, the pool may be available depending on the weather at the time.

- *As per the usual caravan park fees, we have always advertised and expected polocrosse players, spectators and visitors to book and pay through the caravan park. This is not something we police as it is our understanding that this will fall under the caravan parks responsibilities.*

The responsibility remains with the individuals concerned. Supporting publicity from the Polocrosse Club is welcome.
