Construction

The Construction crew have wrapped work on the Errabiddy Bluff Rd. Unfortunately, a job or two from completing what we set out to achieve. for reasons beyond our control, but what has been done has been done to a high standard and should serve all who use the road in the future well. My thanks to Mark and his men who had a few trying times dealing with well-meaning but naïve travelers. They also moved between their construction work and Polocrosse work with very little disruption: one of the advantages to working close to the Settlement.

By the time Council meets the holes in the new fruit orchard will have been filled with pre-mixed and conditioned soil. My thanks to Mt. Narryer for allowing us to relieve them of their manure pile from the cattle yard. They will also help in a general tidy-up around the Settlement prior to the Camp Oven Muster.

Maintenance

Between the flu and grid and sign maintenance they have not spent much time grading since Council last met. As at 17 July 2025 they started at the south boundary on the Beringarra Pindar Rd heading north. The recently re-sheeted sections and some hard and settled sections will be skipped. This will probably change to a full maintenance grade from about Parkers Hill north.

Flood Damage

These works continue with all the time and effort being put into the AGRN 1175 work to meet the September deadline. Once this is completed, we will move back to the 2 previous events (AGRN 1021 and AGRN 1062) A highly efficient way of getting the job done!

SKA Route Works

Walladar are continuing with the second of the re-sheet jobs on the CGG section of the Carnarvon-Mullewa Rd and done a wet grade and roll after the Polocrosse traffic had departed. Next will be a start on the floodways. Squires Resources have been kept busy with maintenance from the Murchison River crossing on the Twin Peaks-Wooleen Rd all the way to the Boolardy-Kalli Rd.

Polocrosse

The Polocrosse Carnival took place over the weekend of 12 and 13 July. By all accounts a very successful carnival was held with no issues or injuries recorded. My thanks to the crew for their work in the lead up to and during the event.

MRWA Projects **

We have been advised that there will be excess MRWA Regional Road Funds available 2025-26 with expressions of interest being invited to access the additional funding available. As a result a project for an additional length of reconstruction and widening works on sections of the Carnarvon-Mullewa Rd is being submitted between SLK185.52 and SLK187.33 north of the Jiggernoo Airstrip as an extension to this year's program. Application will be assessed in accordance with the established scoring methodology. \$211,500 Project with \$141,000 grant. This submission will max out the Regional Roads Group cap per local government. Any additional length if approved will be a bonus given the economies of scale involved.

Recommendation

That Council resolve that the Works Report be noted.

Author: Travis Bate (RSM) – Financial Accountant
Interest Declared: No interest to disclose
Date: 18 July 2025
Attachments: 17.2.1 Monthly Management Financial Report June 2025

Matter for Consideration

The Local Government (Financial Management) Regulations 1996 Regulation 34 requires that local government report monthly and prescribes what is required to be reported. Council is required to consider and receipt the Monthly Financial Statements.

Comments

These statements are being presented to meet a statutory obligation to have each month's end and report presented within the following two months. Key comments in relation to the report are as follows

- 1 Note that year-end adjustments are pending and as such, the final results for the year will differ in the 2026 Budget and 2025 Annual Financial Statements
- 2 Statement of Financial Activity
 - a Closing surplus of \$2,494,188 against budget deficit of \$93,560. The material variances are outlined in Note 2.
- 3 Note 2 Material Variances:
 - a Grants, Subsidies and Contributions – note the receipt of advance payment of F.A.G Grants for Roads and General in June 2025 of approximately 50% of 2026 allocation. This has been transferred to reserves – see Note 7
 - b Employee Costs – these costs are allocated between operating expenses and capital projects. The combined cost (operating + capital) is below budget. The proportion allocated to operating expenses for the year is however above budget.
- 4 Note 4 – Total Cash Balances \$10,509,250. \$2,679,139 unrestricted and \$7,830,111 restricted.
- 5 Note 7 Reserves
 - a Year End Reserve Transfers have been processed. Note that nothing was drawn down from the Settlement Buildings and Facilities Reserve, as this was not deemed necessary based on the progress of these projects and available cash at 30 June. Transfers to reserves are in line with Budget review.
- 6 Note 9 Capital Expenditure – refer to the Executive Summary for expenditure on significant projects

Budget/Financial Implications:

Reports showing year to date financial performance allow monitoring of actual expenditure, revenue and overall results against budget targets.

143 participants have registered for the Murchison Camp Oven Muster. Our total for 2025 is 175, 50 more than was hosted in 2024.

There have been some amendments to the program due to Errabiddy Bluff now falling under formal CALM Act Tenure. Due to this our event would be considered Commercial and we would be required to apply for a license. This has been noted and can be actioned in advance if the location is pursued for the 2026 event. I would like to thank Craig and Helen from Meeberrie Station for giving us permission to view the bluff and enjoy some wine and cheese from a breakaway area on their Station instead.

I would like to thank the working group for their commitment to the 2025 event this year we are small but mighty with only four community members on the working group and two staff. The event program is greater than

2024 with a few more moving parts due to the utilisation of satellite areas we look forward to welcoming our muster goers in a couple short weeks.

The event program has now been finalised as follows.

Upcoming Events

Murchison Camp Oven Muster 1st & 2nd August, Annual Christmas Tree 13th December.

Tourism Initiatives – GeoCaching

We plan to use geocaching to encourage travel through our shire and highlight points of interest. This is utilising existing information in a new way. Great for attracting new audiences but also providing a new way for existing visitors to engage with existing points of interest. This process will also provide us with travel numbers through the Shire to these locations as people are digitally encouraged to log the find even offline. The "GeoCache" is generally a small vessel that contains a log that people sign. Very cost effective to deploy and requires little to no maintenance. We intend to start with deploying this through the settlement grounds then extend out to points of interest further afar.

Tourism Partner News

Murchison Geo-Region are working on an updated version of the trail booklet. MGR are working on land access with Pastoralists which has become complicated since the introduction of the pastoral framework.

AGO are currently working on building existing assets such as their most visited website pages. This includes "[Where to see Wildflowers](#)". The goal is to have a list of locations known to have wildflowers. However, instead of providing specific information that will be encouraging visitors to search for information by visiting or calling the Visitor Centres to get the most up-to-date wildflower information.

Tourism Council of WA have met with the new Minister for Creative Industries and Heritage to discuss Culture tourism and attractions, event and exhibitions and the development of tourism infrastructure, including reuse of heritage property.

Roadhouse Update

June has seen an increase in the booking of caravan park sites with the utilisation of dirt camping areas for the Box Rally.

Local Loyalty Scheme

The Local Loyalty Scheme has been released online through the Monologue. We look forward to seeing and processing applications as they arrive.

We have received a total of 16 applications to this point and expect this to increase with the connection of the loyalty card to pool access for local residents.

Containers for Change Recycling

Economic Objective 1	<i>To develop the region's economic potential to encourage families and businesses to stay in the area.</i>
Interpretive Centre	<i>Development of an Interpretative Centre was identified within the Tourism Development Strategies of the 2013 Strategic Community Plan.</i>

Support for Community Groups	<i>Provision of Human Resources to assist community groups.</i>

The community garden is in full swing with peas, snow peas, kale, carrots, celery, broad beans cauliflower, broccoli and cabbage. Holes in the shade cloth have been mended and recent water mains improvements have reduced the pressure running through a drip lines for no more blow outs.

The orchard has seen a mix of local sand, river sand, horse manure, cow manure added to the holes we are expecting some subsidence as the mix settles. This is when we will add additional nutrients in the top layer of the soil such as bio char and soil conditioner. Next steps are irrigation planning and tree purchasing.

Communications
